Introduction

This is the third edition of the Directory of Ontario Public Libraries. In it are two sections, the first, *Public Libraries including branches* and the second, *Public Libraries arranged by postal regions*.

This edition continues the practice of indicating the size category of the library board, libraries holding Ontario government publications, and the Ontario Library Service area in which the library is located and adds the name of the chief staff person in each of the service points.

The information reported is taken from the Annual Survey of Public Libraries. It was updated over the summer and the Ontario Library Service edited drafts of the Directory.

Every effort has been made to ensure accuracy and clarity in this directory. However, if an error or omission is found, please contact:
